5. Phoned Fisher Howe respecting [REDACTED] and suggested that any possible confirmation of this report would be of the utmost importance. I had previously secured [REDACTED] undertaking to send 25X1A9a to State a complete list of reports dealing with this subject. Mr. Howe undertook to draft a cable to Mr. Kennan requesting any possible confirmation. Later informed me he had done this.

Official Diary

25X1X7

25X1A2g 9. Attended a meeting in [redacted] office respecting the 25X1A9a  
downgrading [redacted] The big issue to my mind is whether the advance  
represented by the security committee position is sufficient to justify  
limiting the all-source concept. This is an extremely serious issue and  
we shall have to be very careful in feeling our way on this subject.

10. Fisher Howe of State phoned and expressed substantial  
concern at the EDAC intelligence working group. The difficulty which  
State is having with this group relates to the fact that it is composed  
of policy people and intelligence people and the intelligence group is  
being requested to express views on policy. I assured him that I was in  
entire accord that Intelligence should not be required to express views  
on policy. Fisher suggested as an alternative that the intelligence  
support for EDAC be made a working committee of EIC and be separated  
from the policy-makers. After some discussion, I indicated that I  
would request a briefing from my people and have a chat with Fisher  
early next week.
